#### THE ORGANIZATION

ECO Platform is an International Non-Profit Association.

#### THE WORKING GROUPS

Actual tasks of Working Group I "Technical Issues"

#### HOW TO JOIN?

If you are interested in a membership, please fill in our membership application form.

### Presentation of the first ECO Platform EPD

Next 16th of October ECO Platform will present the latest developments of its members to achieve a consistent European system to provide Environmental Product Declarations.

The event will take place in Brussels (Boulevard du Souverain 68) during the afternoon and will consist not only in the explanation of the current situation of the EPD market in Europe but also the presentation and handover of the first ECO Platform EPDs.

# ECO Platform EPDs

ECO Platform EPDs are the best way to provide quantitative and verified information about the environmental performance of products, seen from a comprehensive life cycle perspective.

# Advantages ECO Platform EPDs

- ★ Homogeneous approach between products
- ★ Neutrality because the development is not based on rating schemes
- ★ Credibility supported by audits, reviews and third party verification
- ★ Accuracy due to the frequent revisions of the system

# Useful Information

- ★ National regulators
- ★ European regulators
- ★ Designers
- ★ Contractors
- ★ Final users
